

How to Install CIL Extensions and Download/Activate Heartwork Catalogue

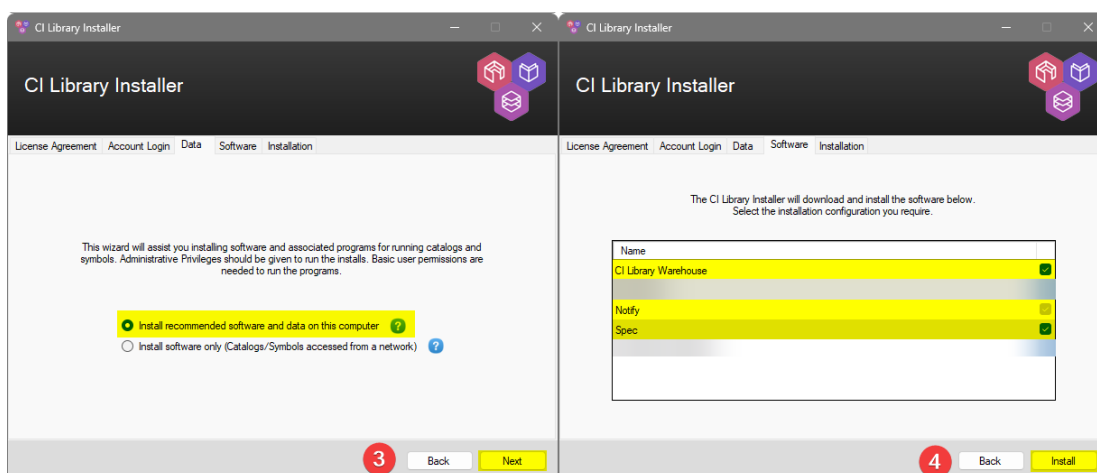

Below are instructions for adding Heartwork in CET. Heartwork does not have its own extension in CET and instead is part of the Commercial Interiors Library Extension.

If the Commercial Interiors Library Extension **is already installed**, please proceed to Step #2 to start the process for downloading the Heartwork Catalogue within this extension.

If the Commercial Interiors Library Extension **is not already installed**, please follow below starting with Step #1 to install this extension and download the Heartwork catalogue.

1. Purchase and Install the Commercial Interiors Library (CIL) Extension | [Commercial Interiors Library Extension – Configura Help Center](#)
 - a. The CIL Extension in CET allows access to the CIL catalogues. Heartwork is a CIL catalogue.
2. Install *Notify* through the *CIL - License Manager*
 - a. Login to the [CIL - License Manager](#) program, then click on *CI Library Installer* in the left pane to download the installer.
 - b. Once the *CI Library Installer* program is downloaded, double click on the file to launch the installer.
 - c. After the installer is launched, you will be prompted to login to your Commercial Interiors Libraries account.
 - d. Follow the prompts to install the recommended software and data on your computer.

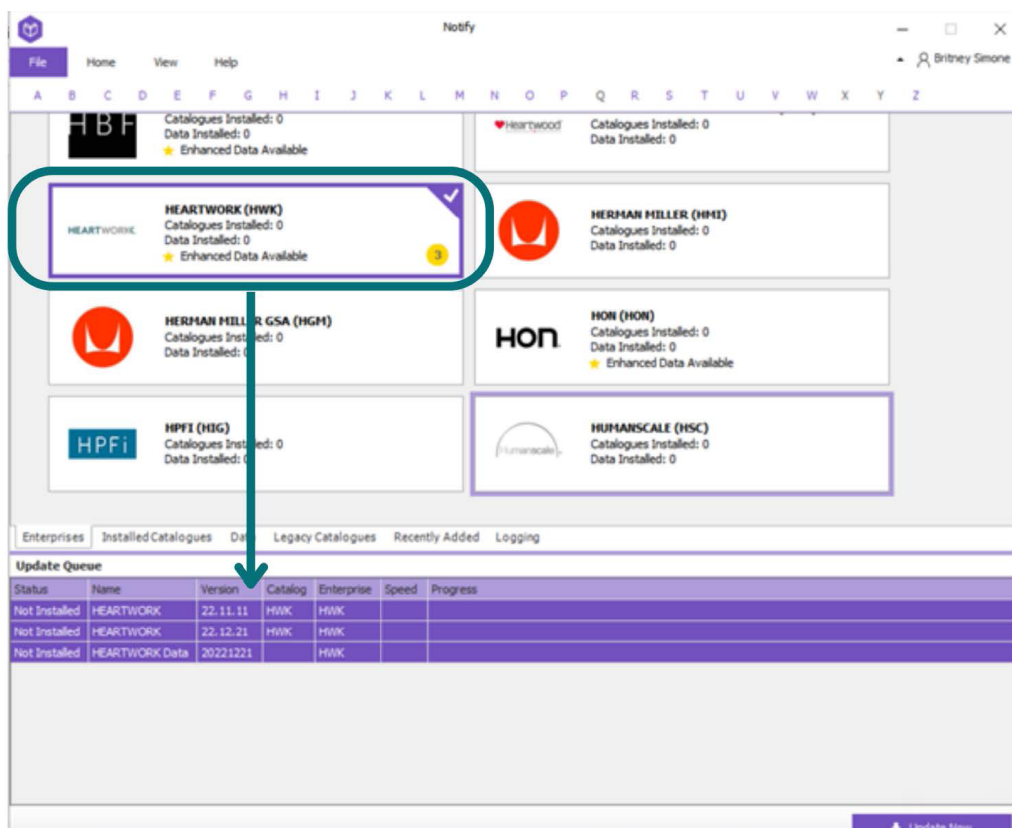

e. After the software is downloaded, there will be a *Notify shortcut icon* on your Desktop.

3. Download Heartwork Catalogue Data

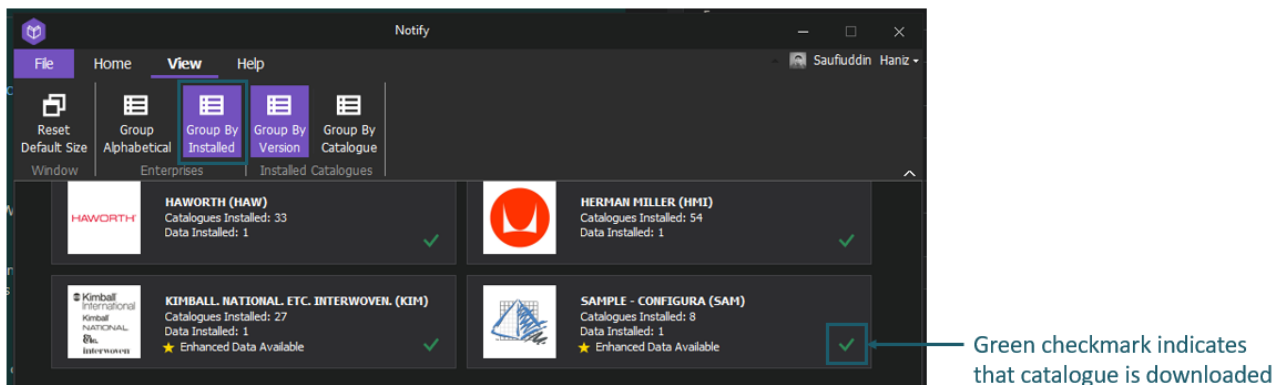

- Click on the *Notify shortcut icon* to launch the program.
- After Notify is launched, you can search for the Heartwork (HWK) catalogue in Notify.
- Click on the Heartwork (HWK) catalogue. It will populate the *Update Queue* section at the bottom of the window in purple.

- d. To finish downloading the catalogue, click *Update Now* in the bottom right corner.

- e. To verify that the catalogue is downloaded, click on the *View* tab in Notify, then select *Group by Installed*.
- f. Your downloaded catalogues will have a green checkmark in the bottom right corner.

4. Activate Heartwork in CET

- a. After a catalogue is downloaded with Notify, the catalogue will need to be activated in CET.
- b. To complete the activation, follow the remaining steps here: [Catalogue Manager – Configuration Help Center](#)
